

Message from the District Manager

May 8, 2020

Dear Property Owners:

Subject: Coronavirus Update #6 – **COVID-19 Protective Measures for HISID Facilities and Restaurant Continue.**

HISID continues to closely monitor Governor Directives and Arkansas Department of Health guidance concerning the COVID-19 situation. Governor Asa Hutchinson recently issued directives allowing restaurants to resume limited “dine-in” operations and provided guidance on swimming pools, outdoor venues, and indoor gatherings as part of the “Arkansas Ready for Business” initiative. These directives and the phased approach to reopening Arkansas’ businesses comes with very strict public health guidance and requirements dealing with personal protective equipment (PPE), social distancing, and sanitation. It is the responsibility of every business to evaluate their own unique situation and ensure that they are ready to reopen in a safe manner that will protect both the public’s health and employees. This requires us having adequate cleaning supplies, hand sanitizer, and PPE to not only open up, but to also continue operations for several months on a sustainable and dependable basis under these challenging conditions.

HISID has put into place several protective measures that allow us to continue operating and providing services to the greatest extent possible. These restrictions include contactless bill paying, to-go and home delivery of food from the restaurant, closing indoor rental facilities, and restricting access to outdoor recreation for non-property owners.

We are working towards the goal of reopening our doors and getting back to normal as soon as possible; however, we can only do this after we are absolutely confident that we can do so in a responsible and safe manner. I feel we are not ready yet and need to continue operating with the current restrictions in place. I will evaluate the protective

measures on a weekly basis and modify as necessary based on the Arkansas Department of Health's guidance and on our ability to meet the new safe operating standards.

Please continue to wash your hands, practice social distancing, wear a mask when you can't social distance, and "If you think you have symptoms, don't wait – get tested."

I appreciate your understanding and patience,

Lawrence Blood.
