Subject: Coronavirus Update #12 – **Driving Range Status Update**

Dear Property Owners:

We recently made several changes to the way the golf courses operate amidst our current COVID-19 situation. I think everyone will agree that nothing during these challenging times can be called normal; however, every decision is made with the goal of keeping life as normal as possible. But every decision must be balanced by simultaneously considering community health and safety, ensuring essential services and amenities continue for property owners, while staying within our limited resources. This leads us to difficult and sometimes unpopular decisions.

We recently closed the driving range for the remainder of the year. After reviewing this decision and talking with staff and several property owners, the decision to close the driving range has demonstrated to be unnecessary. Starting Monday, August 31, 2020 the driving range will be open for business to property owners, guests, and visitors.

Please continue to wash your hands, practice social distancing, wear a mask when you can't socially distance, and "If you think you have symptoms, don't wait – get tested."

I appreciate your understanding and patience,

*Lawrence Blood*
